

eDriver Logs ELD

Registered and Self-Certified With FMCSA.

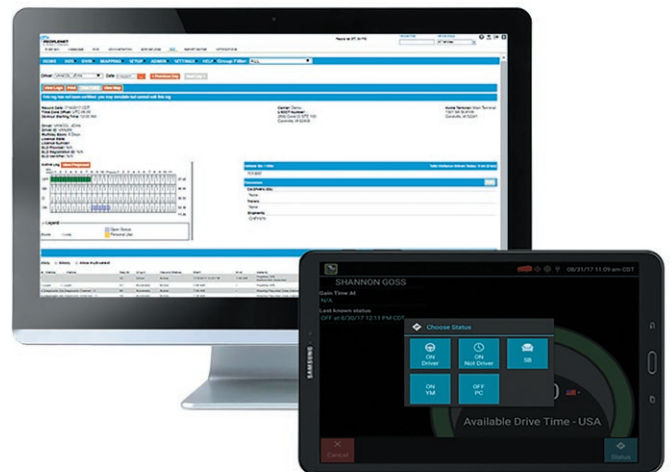

Compliance Meets Performance.

eDriver Logs® ELD automates hours of service while reducing violations and improving driver efficiency and safety. This easy-to-use program gives commercial fleet owners and drivers real-time access to the information they need to better manage hours of services risk and exposure. Plus, eDriver Logs ELD requires no additional hardware or software.

With eDriver Logs ELD you can:

- ▶ Automate hours of service
- ▶ Reduce violations
- ▶ Improve driver efficiency and safety
- ▶ Receive real-time access to information
- ▶ Meet CSA Compliancy

mobility.trimble.com/electronic-logging-devices

Reporting includes:

-  Personal Conveyance (OFF)
 - ▶ Violations report
 - ▶ Hours and miles report
 - ▶ Driver log
 - ▶ Availability report
 - ▶ Unidentified driver report
 - ▶ Conflicts report
-  Yard Moves (ON)
-  All Other Statuses

GAIN COMPLIANCE. ELIMINATE SAFETY RISKS. IMPROVE YOUR BOTTOM LINE.

Pinpoint Violations Before They Happen

Implementing eDriver Logs ELD is not just about complying with the ELD mandate. It's also about pinpointing violations before they are made and eliminating safety risks by knowing how many hours your driver actually spent driving versus being on-duty.

- ▶ Stay ahead of the game by having a snapshot of your driver's profile including company, terminal, trailer and vehicle information instantaneously.
- ▶ The electronic, easy-to-read grid displays driver log information for as many days as you need to see it.
- ▶ The most recent hours of service information can be viewed from inside the cab or from the back office.

Equipped With Safe Mode

eDriver Logs ELD is equipped with Safe Mode, which works with the Trimble vehicle gateway to detect movement, and automatically moves drivers between on-duty and driving statutes, letting your drivers drive. If an hours-of-service violation is imminent, the system alerts the driver.

- ▶ eDriver Logs ELD meets U.S. federal regulations, these requirements can be found in 49 CFR Parts 390 and 395, including state regulations for California, Texas, Wisconsin-construction and Canadian regulation below the 60th parallel.
- ▶ eDriver Logs ELD also supports rules for property, passenger, sales person, construction and oilfield. 100 and 150 mile exemption and U.S. federal exceptions for emergency, adverse driving conditions, 16 hour and agriculture are also supported.

Featured Options

- ▶ Flexible PDF and file printing capabilities
- ▶ Supports driver edits and back office proposed edits
- ▶ Supports Data File Transfer process for roadside inspections via web services and email
- ▶ Allows ELD exempt driver profile configuration
